FCC MAIL ROOM

SUBJECT: Rule Change (Docket No. 92-245) Impacting All
Frequencies Between 72 Mhz and 512 Mhz

Dear Secretary:

I would like to go on record as being opposed to any changes in these frequency ranges as suggested in an attempt to increase channel availability by reducing band width.

This change would create a cost requirement that our County could not meet. In our County, there are many volunteer Fire Departments that can barely survive as it is, much less requiring them to replace radio equipment.

Your search for more channel capacity is a noble effort, but I do not believe that this is the correct method.

Sincerely,

WILLIAM CIUROS, JR.
Commissioner
